# A New Direction for Kentucky

We live in hard economic times, but our lives can improve if we create more jobs and reduce the cost of living. If elected, I will propose legislation that will

- reduce the cost of doing business to make Kentucky the most business-friendly state in the nation (see The Kentucky Freedom Plan on [www.rogerthoney.com](http://www.rogerthoney.com));
- eliminate property taxes, taxes on our bills (electric, telephone, insurance, etc.), and all taxes on business activity to help stimulate job creation and reduce the cost of living;
- roll back the taxes on cigarettes and alcohol to re-create the jobs lost when these taxes were increased;
- reduce the cost of health insurance and provide coverage to any Kentuckian who wants health insurance (see The Freedom Plan for Health Care Finance Reform on [www.rogerthoney.com](http://www.rogerthoney.com));
- change welfare to provide a helping hand rather than a handout;
- provide a helping hand to those at risk of losing their homes through foreclosure;
- provide a helping hand to struggling seniors;
- amend our state's constitution to declare that the right to life begins at conception;
- limit county and city governments' authority to issue smoking bans to property owned or leased by them in order to save jobs; and
- decentralize power in Kentucky giving more autonomy to county governments and our local schools;

This election for 67<sup>th</sup> District State Representative begins a movement to improve our lives. The greater my margin of victory, the stronger this movement will be and the more influential I will be in Frankfort;

I will "put the people first ahead of self and Party;" and I ask for your vote on November 2. Give me a chance to show you what I can do;

Sincerely,  
Roger Thoney

**Less Gov't = More Jobs, Lower Cost of Living, Lower Taxes = More Freedom**

*"We need someone in Frankfort who understands how jobs are created and is willing to stand up to entrenched political interests on behalf of the people. I will be that person. I will be your economic warrior." – Roger Thoney*

**About Roger Thoney** – Roger lives in Highland Heights with his wife Rita. He attended Cold Spring Elementary School and graduated from Campbell County High School in 1972. He has a BS in Electrical Engineering, an MBA, and an MS in Economics from the University of Kentucky and an MS in Electrical Engineering from The Ohio State University. He is a registered professional engineer with project management experience and has worked for The Procter & Gamble Co., The Cincinnati Gas & Electric Company, and IBM. He currently works as an economic troubleshooter developing economic plans designed to create more jobs and reduce the cost of living to help those who struggle to make ends meet. He has deep family ties to northern Campbell County. His grandparents lived in Newport and Southgate and his mother, father, aunts, and uncles graduated from Newport High School.
